

STONEWALL FARM

School Holiday Camps 2011-12

October 10th, 2011

Fall on the Farm

Come and enjoy the beauty of Autumn, here at Stonewall Farm. We will go on a Fall hike, exploring the different natural areas of the farm while learning about the leaves and the trees that lose them. Some trees also provide a delicious treat for us in the Fall. Campers will get to use an old fashioned cider press to make their own cider.

Celebrate the Harvest

Enjoy a day of making delicious stone soup and bread using ingredients grown at Stonewall Farm and found in our root cellar. We'll learn about the importance and joy of using fresh local ingredients and cooking for ourselves. Campers will also get to discover some of the tools and animals used on the farm, today and throughout history. We will put our Belgian Draft Horses to work with a fun hayride for all campers!

Crafty Campers

It's a good time of year to learn how to make fun crafts. We will use wool, bees wax, and other items found around the farm, to create unique arts and crafts. We will also save plenty of time to enjoy the crisp clean air and say hello to our farm friends.

Winter Wildlife

Winter is an excellent time to learn how our forest friends adapt and survive the cold. Weather permitting, we'll snowshoe to look for signs of animals and learn a few tracking techniques. Of course, we will

visit with and care for our chilly farm animals inside the barns, and we'll save some time for snow fun.

Fabulous Frozen Farm

Cold, snow, and ice don't slow things down on the Farm. There are still lots of farm chores to keep up with and cool ways to have some fun. We will learn what folks in New England have been doing for centuries, to keep busy during the cold winter months. And if the conditions are right we will have fun with sleigh rides and making snow buddies.
